WELCOME TO THE BUQUOY BRAND GUIDE

Built on a foundation of heritage and modern innovation, Buquoy is committed to helping people take control of their health with clarity and integrity. This guide outlines our visual and verbal identity, ensuring a **consistent and purposeful brand presence** across all platforms.

LOGO GUIDES

PRIMARY LOGO

The BUQUOY primary logo lock-up is the cornerstone of our visual identity. It brings together the custom wordmark with our emblematic shield—fusing tradition and bold modernity in a single mark.

The icon draws from the Buquoy family crest, reimagined to include a stylized castle (which also forms the letter “B”), protected by a sturdy shield and grounded by a crescent moon. Paired with a strong serif wordmark, this lock-up reflects our commitment to legacy and forward momentum.

This is the most complete and versatile expression of our brand, to be used across high-visibility and brand-defining applications.

LOGO MARK CONSTRUCT

Our logo-mark is a modern homage to the Buquoy family crest—an emblem of legacy, strength, and purpose. The mark deconstructs traditional heraldic symbols into a clean, structured system:

- **The Shield** represents protection and tradition.
- **The 'B' Lettermark** grounds the design in our name.
- **The Castle** symbolizes resilience and strong foundations.
- **The Crescent Moon** hints at transformation, progress, and a constant striving for better.

LOGO SAFE ZONE

To maintain visual clarity and brand integrity, the BUQUOY logo must always be surrounded by sufficient clear space. This buffer zone ensures the logo is never crowded or obstructed by other graphic elements, text, or edges.

The minimum clear space is defined by the height of the letter “Q” from the wordmark. This measurement should be maintained on all sides of the logo lock-up to preserve its impact and legibility.

Never place any content within this zone. Respecting clear space helps our identity breathe—and ensures consistent, premium presentation across all applications.

LOGO LOCK-UPS

The BUQUOY logo is designed to be flexible and effective across a variety of applications. To maintain consistency while allowing for versatility, we've established two approved lock-up formats:

- **Stacked Logo Lock-Up**

Our primary configuration. Ideal for formal or vertically-oriented layouts where visual hierarchy and presence are key.

- **Horizontal Logo Lock-Up**

A space-efficient alternative. Best suited for landscape formats, web headers, signage, or tight horizontal spaces.

Both versions maintain the integrity of the logo-mark and wordmark relationship. Always use the provided artwork files and avoid rearranging or distorting any elements.

HORIZONTAL
LOGO LOCK-UP

OVERALL COLOUR USE-CASES

To maintain brand consistency across various applications, the BUQUOY logo has been optimized for use on a range of background colours. These approved variations ensure clarity, contrast, and legibility in all environments.

Our logo may be used in the colour combinations shown on the right.

Always ensure sufficient contrast and avoid unapproved colour combinations that reduce visibility or compromise brand recognition.

LOGO MISUSE

To protect the integrity of the BUQUOY brand, the logo must never be altered or misrepresented. Avoid the following incorrect uses:

- **Do not** apply unapproved colours/gradients
- **Do not** add shadows or effects
- **Do not** distort or stretch the logo
- **Do not** change proportions or spacing
- **Do not** use low-contrast versions
- **Do not** recreate or reconfigure elements

Always use approved logo files to ensure consistency and professionalism across all applications.

SUB-BRAND LOGO

The BUQUOY sub-brand logo system allows for consistent branding across different service areas. Each sub-brand retains the core logo-mark and wordmark, with a descriptor added below in a clean, modern typeface.

In this example, BUQUOY Chiropractic follows the approved lock-up format, maintaining visual harmony while clearly identifying the service offering.

Use only approved naming conventions and maintain clear space and legibility at all times.

Note: This font used is for the sub-brand is gotham medium (outlined version)

TYPOGRAPHY GUIDES

PRIMARY FONT

Montserrat Light

Montserrat medium

Montserrat bold

Aa

PRIMARY FONT

Montserrat is our primary brand typeface. Clean, confident, and highly legible, it reflects the clarity and modernity of the BUQUOY brand.

We use the following weights for hierarchy and flexibility:

- Montserrat Bold – For headlines and key emphasis
- Montserrat Medium – For subheadings and supporting titles
- Montserrat Light – For body copy and longer text

Consistent use of these styles helps maintain a cohesive and polished brand voice across all platforms.

SECONDARY FONT

Cormorant Garamond Medium
Cormorant Garamond Bold

Aa

SECONDARY FONT

Cormorant Garamond is our secondary typeface, adding warmth, elegance, and a sense of heritage to the BUQUOY brand. It pairs beautifully with the modernity of Montserrat, creating contrast and sophistication in messaging.

Used primarily for emphasis in headlines, quotes, and storytelling moments, Cormorant Garamond brings a human, refined tone to the brand—perfectly demonstrated in campaign work and large-format applications.

Weights in use:

- Cormorant Garamond Regular
- Cormorant Garamond Bold (mainly in italics)

FONT SHEET

Typography plays a key role in defining the BUQUOY brand voice—confident, clear, and refined. Our type system is built around a versatile hierarchy of fonts:

- **Primary Font:** Montserrat
Used for headlines, subheadings, and body copy. Modern and highly legible.
- **Secondary Font:** Cormorant Garamond
Adds a sense of heritage and elegance. Best for emphasis on titles, quotes, and editorial content.
- **System Fonts:** Inter & Literata
For use in digital environments where brand fonts aren't supported. Inter mirrors Montserrat's structure; Literata offers a serif alternative to Cormorant Garamond. Though Montserrat and Cormorant, might be easily accessible, these are just back-ups in cases where they aren't.

Use approved weights only, and always maintain consistency across applications.

FONT PAIRING

Our type system combines the strength of Montserrat with the elegance of Cormorant Garamond to create a refined and flexible visual language.

This guide shows how fonts are paired across content types.

These combinations ensure clarity, hierarchy, and a consistent tone across all brand communications.

COLOUR GUIDES

COLOUR PALETTE

The BUQUOY colour palette is designed to balance professionalism with approachability. It combines deep, grounding tones with calm, optimistic blues and neutral accents.

- Primary Colours
 - Navy (brand anchor)
 - Light Blue (approachable and clean)
- Secondary & Support Colours
 - Pale Blue, Silver, and Black provide flexibility and contrast across applications.

Use this palette consistently to maintain a cohesive and recognisable brand presence across all touchpoints.

BUQUOY BRAND GUIDELINES

RGB 0 - 0 - 0
HEX #000000

COLOR PAIRING RULES

Consistent colour pairing is key to maintaining visual harmony across all brand touchpoints. These recommended combinations ensure strong contrast, readability, and a balanced aesthetic.

- Navy base works well with pale tones and white for a clean, premium look.
- Light Blue backgrounds pair best with navy, black, and white for accessible contrast.
- Pale Blue and White bases should be anchored with darker tones for legibility and emphasis.

Use these combinations to guide layouts, text overlays, and background treatments across digital and print.

SECONDARY COLOURS

Our secondary colour palette provides a versatile range of soft, supportive tones that complement the core brand colours. These shades are ideal for UI elements, infographics, and data visualisation—helping to create depth and clarity without overpowering the primary brand presence.

Use them to enhance hierarchy, guide attention, or provide contrast within digital and print applications, while maintaining a clean and cohesive aesthetic.

SILVER FOIL USE-CASE

The BUQUOY logo may be rendered in silver foil for premium print applications. This treatment reinforces the brand's sense of heritage, craftsmanship, and quality.

Use foil sparingly to maintain impact. Always ensure adequate contrast with background materials and avoid using foil on highly textured or low-contrast surfaces.

IMAGERY + VISUAL DEVICES

IMAGE STYLE

BUQUOY's photography captures real, human moments—centering on trust, care, and the healing power of touch.

Our imagery is:

- **Natural and unposed** – Reflecting authentic patient-practitioner interactions
- **Warm and neutral in tone** – Soft lighting and minimal distractions
- **Focused on detail** – Hands, posture, and alignment are key visual cues
- **Environmentally grounded** – Clean, calm spaces that reflect professionalism and comfort

This style reinforces our values of connection, precision, and well-being.

BUQUOY BRAND GUIDELINES

IMAGE EFFECT

To maintain a consistent visual tone across branded materials, an overlay effect is applied to photography when used in layouts like banners, backgrounds, or title slides.

This treatment creates a cohesive, moody aesthetic that allows white or light text to sit cleanly over images without losing clarity or emotional tone. Use this effect sparingly where it works best.

BUQUOY BRAND GUIDELINES

BRAND PATTERN

The BUQUOY brand pattern is built from a repeat of the castle icon within our logo-mark —symbolizing strength, structure, and unity.

Used as a background or design accent, the pattern adds texture and visual interest while reinforcing brand identity. It is most effective when applied subtly, using tone-on-tone colour treatments to maintain a polished and professional feel.

BUQUOY BRAND GUIDELINES

DATA VISUALS

BUQUOY's data visuals follow a clean, minimal style that prioritises clarity, structure, and brand alignment.

Using our core colour palette, graphs and charts are designed to communicate information clearly while reinforcing visual consistency.

Key principles:

- Use brand blues and neutrals to group or distinguish data
- Maintain consistent line weights, font styles, and label placement
- Avoid excessive gradients or decorative elements

Note: This is where the Secondary colours come in handy

This approach ensures our data feels as trustworthy and refined as the rest of our brand.

DESIGN APPLICATION

SOCIAL MEDIA

Our Instagram presence blends clarity, inspiration, and professionalism—while allowing room for dynamic, varied content. Whether we're educating, showcasing testimonials, highlighting services, or promoting healthy lifestyles, every post should feel unmistakably BUQUOY.

Key style principles:

- Consistent layout grid with strong hierarchy
- Montserrat and Cormorant Garamond font pairing for clarity and elegance
- Brand colours used boldly for contrast and legibility
- Use of icons, data visualisation, and testimonials to build credibility

Each post should feel polished, informative, and distinctly BUQUOY.

BUQUOY BRAND GUIDELINES

OUTDOOR MEDIA

APPLICATIONS

WEBSITE DESIGN – LANDING PAGE

The BUQUOY website is designed to make a strong first impression—combining clarity, elegance, and ease of navigation. The landing page features bold messaging, clear hierarchy, and a seamless mobile-to-desktop experience.

This page sets the tone for the BUQUOY digital experience—confident, welcoming, and focused on results.

BUQUOY BRAND GUIDELINES

UNIFORM/ APPAREL

BUQUOY apparel reflects our commitment to professionalism, care, and brand pride. Our uniform design is minimal, functional, and proudly features the primary logo in embroidered or printed form.

Key details:

- Navy base fabric aligns with our core brand colour
- Subtle logo placement on the chest ensures brand visibility without distraction
- Clean, modern cut to reflect confidence and trust in clinical environments

Apparel should always feel polished, approachable, and consistent with the BUQUOY brand ethos.

BUQUOY BRAND GUIDELINES

SILVER FOIL USAGE

The BUQUOY logo may be rendered in silver foil for premium print applications. This treatment reinforces the brand's sense of heritage, craftsmanship, and quality.

Additionally, metallic or brushed steel finishes are recommended for external signage and wayfinding—especially on storefronts, reception areas, and branded environmental touchpoints. These materials reflect professionalism and permanence while tying back to our identity's refined aesthetic.

Use foil sparingly to maintain impact. Always ensure adequate contrast with background materials and avoid using foil on highly textured or low-contrast surfaces.
